

Gulfstream

FAA STC ST03464CH
EASA STC 10059093

**PMA Kit Parts
Available**

Highlights

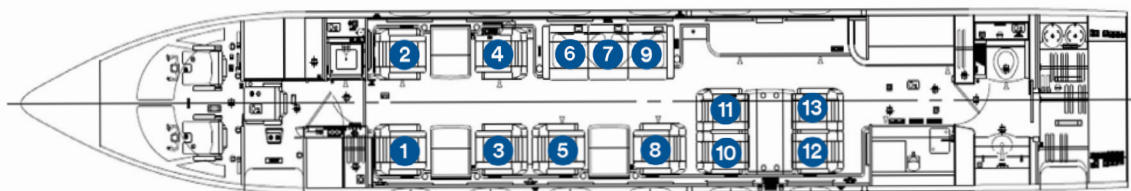

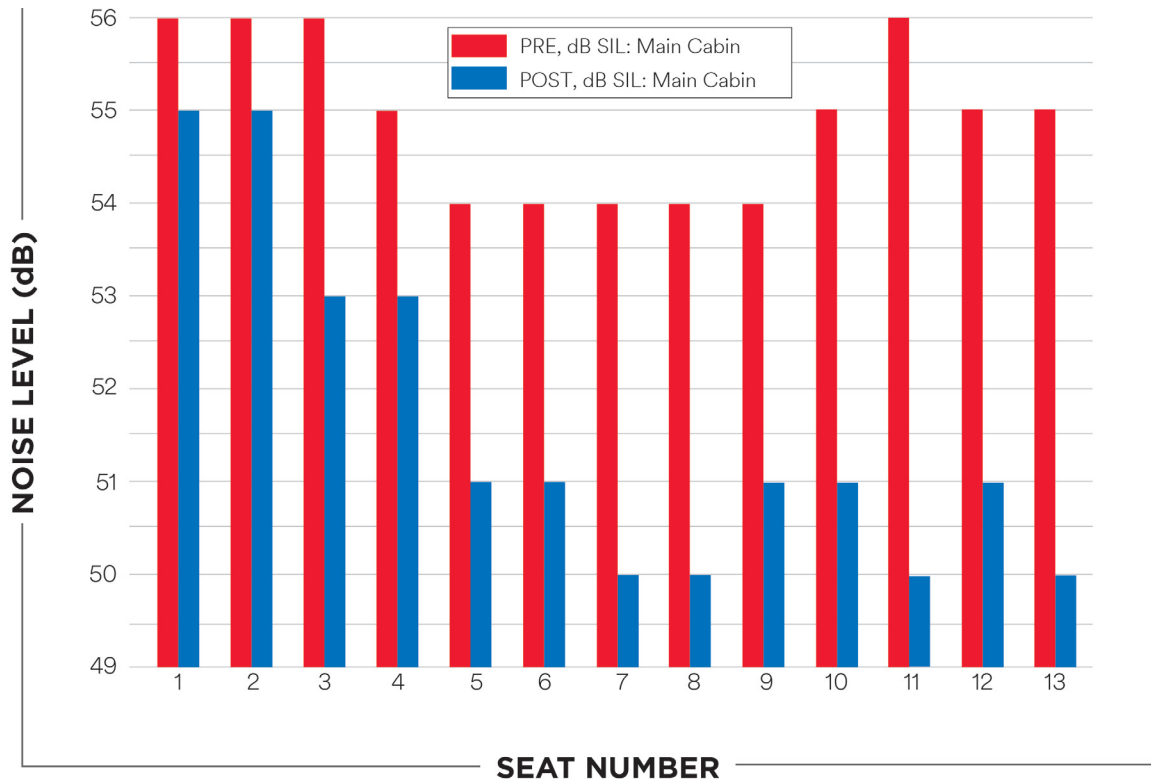

- Acoustic STC refreshes the entire aircraft and can help restore original overall low noise levels.
- STC remains the easiest way to update cabin insulation and soundproofing during a refurbishment event (96-144 mo).
- Rapid response time – lead time on kit is 2 weeks ARO
- One kit part number contains everything needed for re-fresh, install, and FAA approval.

*Thermal/Acoustic Insulation
System Installation for the following
GULFSTREAM airplane models and
their commercial designations:*

AIRPLANE MODEL	COMMERCIAL DESIGNATION(S)
G1159A	GIII
GIV	G300 & G400
GIV-X	G350 & G450
